### Femingo Launched 100% Natural and Clinically Validated Topical Application Oil Serums for Menstrual Cramps Relief and PCOS

Femingo, a unit of Yogic Naturals has recently launched one of the world's first 100% natural, clinically validated, international peer reviewed medical journal published, topical application oil serums for PCOS and Primary Dysmenorrhea (Menstrual Cramps).

This highlights the brands focus on Women's Health and Wellness category.

Femingo is a woman centric self-care brand that is setting new standards for Women's Health and Wellness. With the holistic approach that focuses on the root cause & not symptoms alone, there is finally a clinically validated Topical Application Ayurveda Solution GO GO YIN Oil Serum for Primary Dysmenorrhea (a condition of painful menstruation) and PCOS Oil Serum for PCOS- Polycystic Ovary Syndrome, a menstrual disorder.

Many women across the globe face conditions where an imbalance of hormones leads to the growth of ovarian cysts, painful periods, heavy bleeding and other related issues – irregular ovulation, infertility, weight gain, hair fall, facial hair growth, acne, hypertension, high cholesterol, endometrial and breast cancer, sleep apnea, anxiety, depression, and diabetes – which are generally taken for granted as being endemic to our generation.

It's time to start talking PCOS and Primary Dysmenorrhea. Today, we finally have a clinically validated Solution for PCOS and Primary Dysmenorrhea, researched and developed by a Delhi-based healthcare brand Femingo by Yogic Naturals. Backed by over 27 years of R&D by Inventor Mr. Amul S. Bahl, a 10 pointer from IIT-Delhi. Traditional therapies lack modern scientific validation and Femingo by Yogic Naturals has blended ancient scientific principles with modern scientific validation which has brought back hope and happiness to many women and their families.

Mr. Amul S. Bahl the Inventor says "PCOS and Primary Dysmenorrhea, especially in

India, is not merely health issues, they have critical social implications for women and their families. It impacts their confidence, self-esteem, matrimonial relationships apart from numerous health concerns. Our aim is to correct the root cause and bring harmony within a woman's inner being, her aspirations, her self-image and her relationships. Hence we always looked at a researched treatment for PCOS and not just its symptoms." Products by Femingo

### PCOS Oil Serum Treatment for Freedom from PCOS

The treatment for PCOS consists two oil serums - Endobal and Yin(PC). The former focuses on harmonizing hormonal imbalance and its symptoms, while the latter focuses on the ovarian size and cysts. This topical use oil serums have proven vast improvement hormonal behavior and disappearance of the cysts, leading many to testify for this cost-effective, easily-applicable and pain-free healing process, which can be administered in the comforts and privacy of your bedroom.

The 3rd party independent clinical trial showed significant improvement in the key parameters of PCOS
